

Ladies and Gentlemen of the FCC

I am Cyrus Hogue and together with several members of the Hillsborough Community have incorporated Hillsborough Community Media (a 501c(3) corporation) in the hope that it can obtain a low power license to serve the Hillsborough and Northern Orange County North Carolina community.

Hillsborough has small footprint in media – there is only a weekly paper – and is overshadowed by its proximity to Durham/Chapel Hill/Carrboro. It has in the last 35 years that I have lived and practiced law here grown from a textile mill community to a diverse cultural community with many nationally famous writers and educators who would welcome such a cultural outlet as is offered by a low power station.

A Hillsborough radio station would provide local news, and public affairs, drama, as well as partnering with area authors, musicians, actors, and educational and cultural institutions to provide local programming.

We intend that this station will provide the opportunity for broadcast training for and local programming from interested local school students, school clubs, and school teachers.

Thank you

Cyrus Hogue
